Extension Kits - Non Hooking

Adult / Child Thoracic Harness

- » Helps maintain upper body posture / prevents slipping
- » Padding (polyester laminated neoprene) has soft contact with skin
- » Supplied with fixture kit for variable height positioning
- » Easily removable and machine washable
- » Adult length: 51 - 84cm (20" - 33")
- » Child length: 33 - 54cm (13" - 21")

Centre Sucker Fixture Kit

- » Allows front suction feet to relocate to middle of base frame to avoid uneven surfaces and ensure secure adhesion

Height Adaptor Set

- » Fit to Aquila's suction feet to increase seat height in deep baths by 2.5cm (1")

Pommel

- » Triangular shape separates legs for maintaining correct posture
- » Fitted and removed tool free in 2 depth locations on seat to suit different size children
- » Easy fitting (seat holes must be predrilled)

Cushioned Covers

- » Easily fitted and removed
- » Padded cushions add extra comfort for bathing
- » Antimicrobial protection for added hygiene control
- » Suitable for hand washing
- » Paediatric seat covers and full cover set have integral holes to accommodate pommel or knee wedge

Knee Wedge

- » Positioned under user's knees to maintain correct sitting position and prevent slipping
- » Easy fitting at 3 depth locations (seat holes must be predrilled)

Other Accessories

- » Adult / Child Pelvic Harness
- » Slide & Swivel Aid
- » Side Flap Protectors and Extension Kits (see page 143 for further details)
